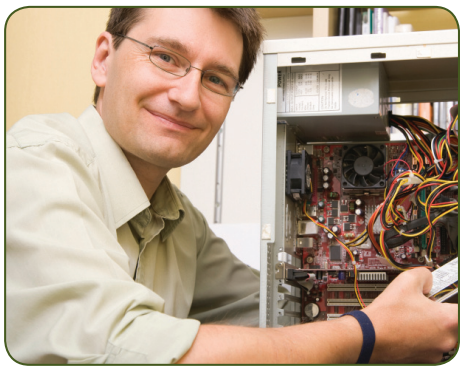
Prepare to Work: Computer and Information Technology

Fast training for today's jobs

Get certified for an entry-level career in information technology.



Computer Repair (A+ Certification – 2009 Objectives)

(100-hour, 200-hour programs)

Work at your own pace in these programs to prepare for certification exams to earn the industry standard A+ Certification. Get individual assistance in an open lab available from 8 a.m. to 4:30 p.m. Monday through Friday. Class fee includes textbooks, study material, tool kit, removable hard drive and portable flash drive, as well as test vouchers.

The A+ program remains a skills benchmark that provides an entry point into an information technology career and the industry standard to validate foundational skills.

In order to gain the A+ credentials, there are two exams to pass:

- CompTIA A+ Essentials, exam code 220-701.
- CompTIA A+ Practical Application, exam code 220-702.

Required WorkKeys assessments provided at beginning of program.

Prerequisite: No computer experience necessary.

Classes start every week and meet year-round.
Call (810) 989-5788 to schedule an orientation.

100 hours/8 weeks
M-TEC 201 — Port Huron campus
Cost: $875 — 10 CEUs/100 Contact hours
ZPIT 710 01

200 hours/16 weeks
M-TEC 201 — Port Huron campus
Cost: $1,750 — 20 CEUs/200 Contact hours
ZPIT 711 01

Computer Repair (A+ Certification – 2009 Objectives)

(800-hour program)

Work at your own pace in this one-year program to prepare for certification exams to earn the industry standard A+ Certification. Get individual assistance in an open lab available from 8 a.m. to 4:30 p.m. Monday through Friday. Class fee includes textbooks, study material, tool kit, removable hard drive and portable flash drive, as well as test vouchers.

The A+ program remains a skills benchmark that provides an entry point into an information technology career and the industry standard to validate foundational skills.

In order to gain the A+ credentials, there are two exams to pass:
